## Espresso

7gm of freshly roasted coffee, compacted and brewed under pressure, yielding a 2oz serving with a golden crema sealing in the intense flavour.

## Espresso Con Panna

A single espresso with (con) a topping of freshly whipped cream (panna).

## Espresso Macchiato

A single espresso topped with a short head of foamed milk to retain the warmth of the coffee beneath.

## Café Americano

A single espresso with hot water added to 7fl oz, served black or with cold milk.

## Cappuccino

A single espresso, 2 fl oz of steamed milk onto which is floated a further 2-3 fl oz of foamed milk. The masterpiece is complete only when dusted with unsweetened chocolate powder, cinnamon or vanilla.

## Caffe Latte

Steamed milk is poured onto a single espresso to fill the cup, being crowned with a short head of foamed milk.

## Café Mocha

Chocolate syrup (or powder) covers the bottom of the cup, before a single espresso is allowed to mingle, forming a sharp sweet confusion. Steamed milk is added to the 10 fl oz cup to the brim before foamed milk seals in the heat and flavour, topped with a sprinkle of cocoa.
